**Amendments to the Claims:**

This listing of claims will replace all prior versions, and listings, of claims in the application:

**Listing of Claims:**

1.-84. Cancelled

85. (Currently Amended) A pad comprising a plurality of wet resilient wet-laid, textured, through-dried, cellulosic tissue webs comprising hydrophilic papermaking fibers, said webs being joined together in a superposed relationship by at least one of adhesives, sewn thread, fiber entanglement, and embossments, said webs comprising from about 20 to 100 percent high-yield fibers and a wet strength agent, and having a dry bulk between 8 and 28 cubic centimeters per gram and a Wet Compressed Bulk of at least about 6 cubic centimeters per gram, said ~~pad~~ pad comprising a first outermost tissue web having an upper surface and a lower surface, the upper surface facing outward from said pad and having elevated and depressed regions and having hydrophobic matter selectively deposited on the elevated regions of said upper surface of the at least one outermost tissue web.

86. (Previously Presented) The pad of claim 85, wherein the webs of the plurality of tissue webs have a basis weight from about 15 grams per square meter to about 70 grams per square meter per individual web.

87. (Previously Presented) The pad of claim 85, wherein the plurality of tissue webs has a wet:dry tensile ratio of at least 0.1.

88. (Previously Presented) The pad of claim 85, wherein the plurality of tissue webs are joined one to another by adhesive means.
